Understanding

This document explains the information about Magento Sales Notification - Boost Your Sales Magento Extension. The main function of this extension is that it allows your customers to show recent sales notification. There is a solution to let you notify your customers about recently sold products at your store with pop-up notifications. "Easy Magento Notification-Boost Your Sales Extension" is an easy-to-use extension, displaying real-time notifications on your website. The extension is very much helpful in boosting your sales.

Features

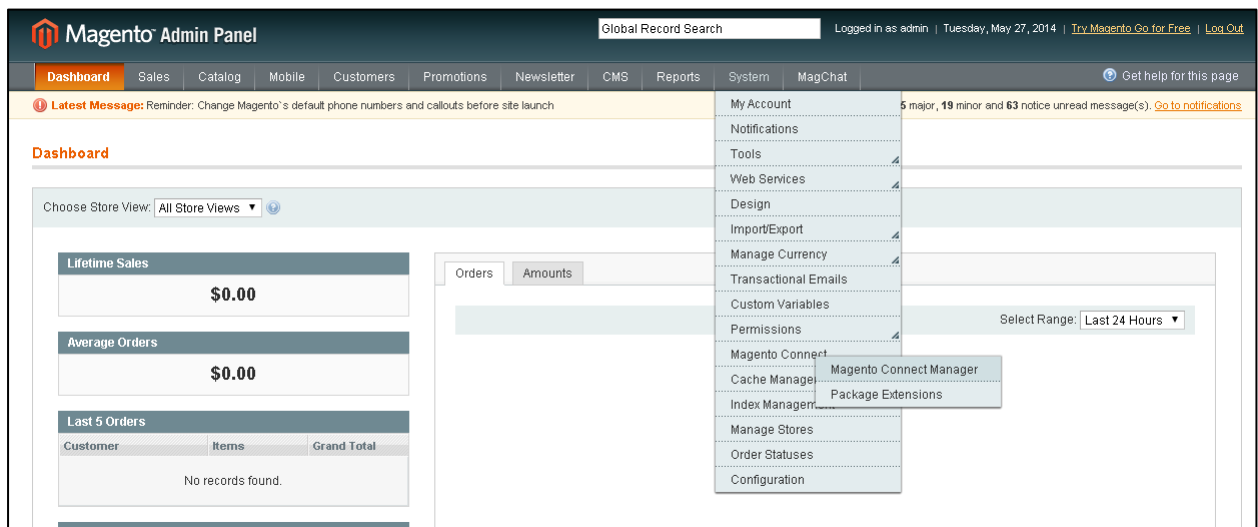

1. Enable/disable for backend.
2. Admin can select notification interval and display time to make shopping.
3. Product Information Displayed.
4. Product sales notification will display all information regarding the product sold including product name, image, item number and location etc. .
5. Real-Time Order Notifications.
6. Recent Sales Notification displays unlimited real-time notifications.
-Increase Product visibility
